EXPERIENCES

Design System Manager at Deezer

from January 2023 to December 2023

Collaboration with product managers, design team and development team. Worked on restructuring the design system for all the different devices we use at Deezer (mobile, web, tv, car app, watches). Introduced tokens, components and processes to develop and prepare for product rebranding. Work on accessibility for the new application design.

Design System Manager at TotalEnergies

from July 2022 to December 2022

Collaboration with product owners, UX team & dev team. Working on design system, rebranding and many other B2C and B2B projects.

Freelance

from June 2021

I've done several UX / UI freelance missions including several for the junior company Synerghetic.

Marketing Project Manager at Hello Birdie

from July 2020 to October 2020

3 months internship in the start-up Hello Birdie as a marketing project manager. I was in charge of communication and various marketing elements such as user audits.

UVDE communication team (digital culture seminar)

from September 2020 to June 2020

Participation in the elaboration of promotional campaigns for UVDE meetings, and intervention during the meetings to bring the debate.

SCHOOL CAREER

Master 2 at HETIC (school for tech and digital professions)

TOEIC score of 865
